Recommendations to operate iX Capture:

If you have hundreds of images, to reach a maximal speed of conversion, proceed as following:

1. Start iX Capture
2. Select 3-5 images
3. Convert them to TIFF or JPEG
4. Stop conversion and delete history (CLEAR DONE) in iX Capture
5. Exit iX Capture
6. Start iX Capture again
7. Select all the images
8. Run conversion for all the images
